From the Desk of the Academic Director and Sr. Principal

Dear Parents

As we approach the end of this academic year, I would like to express my sincere appreciation for your continued support in this journey of excellence. Each academic year is an opportunity to reach new heights and establish fresh goals for the future. My aspiration, shared by my staff, is to ensure a safe, supportive, and collaborative learning environment for each of our students. We are dedicated to cultivating a respectful environment that encourages each student to strive for their individual best.

Our vision includes students taking initiative in organizing and implementing their own educational paths, as the greatest fulfilment in life comes from contributing to legacies that endure beyond our existence. Our goal is to ensure a cohesive learning journey that leads to remarkable academic success through innovative teaching strategies. Our pedagogical methods are crafted to lay a strong foundation for positive, enduring attitudes, skills, and memories for our students.

At the same time, we are devoted to enhancing our student's physical, social, emotional, and spiritual well-being. We strive to educate our students to become agents of change in the world, prioritizing the principles of harmony, empathy, and belongingness, while also cultivating values like respect, integrity, compassion, and responsibility among our students, enabling them to address the continuously changing global challenges. We also foster a safe and healthy lifestyle, effectively aiding in the sustainability and preservation of our environment.

I would like to extend my deep gratitude to the Management of KENNEDY HIGH for their steadfast and unconditional support.

Furthermore, I would like to recognize the constant assistance and cooperation of all teaching and non-teaching staff, who play a crucial role in the seamless functioning of this institution.

Most importantly, I wish to thank all the parents for reposing their faith in KENNEDY HIGH and for their continued cooperation and understanding. We are dedicated to establishing strong connections between parents and teachers, as these relationships are crucial for the academic success of our students.

Let us work together to empower our children by endowing them with fine characters, encompassing values like honesty, respect and discipline so that they can transform not only their own lives but also change the world for the better.
